Basic Information

- Place of Origin: Japan
- Brand Name: Komatsu
- Model Number: PC160LC-7
- Minimum Order Quantity: 1 set
- Price: 16800 USD - 29800 USD
- Packaging Details: Bulk or Container
- Delivery Time: 5-8 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per year

Product Specification

- Rated Power: 112KW
- Max Digging Depth: 5960mm
- Working Weight: 16500kg
- Travel Speed: 3.4/5.5km/h
- Overall Size: 8.6×2.5×2.99m
- Max Digging Hight: 8980mm
- Capacity: 0.65m³
- Fuel Tank: 280L
- Highlight: Earth Moving Komatsu Construction Excavator,
Used Komatsu Excavator 112KW,
5.5km/H Komatsu Construction Excavator

Product Description:

Used Komatsu Excavator - Your Best Choice for Construction and Earth Moving

Are you looking for a reliable and efficient excavator for your construction or earth moving projects? Look no further than the Used Komatsu Excavator. With its powerful engine, impressive digging depth and large capacity, this excavator is the perfect tool to get the job done quickly and efficiently.

Product Overview

The Used Komatsu Excavator is a Komatsu construction excavator designed for heavy duty tasks. It is also suitable for earth moving projects, making it a versatile and essential equipment for any construction site. This used excavator has been thoroughly inspected and serviced to ensure its quality and functionality.

Powerful Engine

The Used Komatsu Excavator is equipped with a powerful SAA4D102E-2 engine that delivers a rated power of 112KW. This engine provides the necessary power and torque to handle tough terrains and heavy loads, making it an excellent choice for any construction or earth moving project.

Impressive Digging Depth

With a maximum digging depth of 5960mm, the Used Komatsu Excavator can easily reach and excavate deep areas. This makes it perfect for projects that require deep digging, such as building foundations, trenching, and landscaping.

Large Capacity

The excavator's bucket capacity is 0.65m³, allowing for efficient and quick loading and unloading of materials. This large capacity also means less time and effort spent on refilling the bucket, increasing productivity and reducing downtime.

Compact and Versatile

The overall size of the Used Komatsu Excavator is 8.6×2.5×2.99m, making it compact and easy to maneuver on construction sites. Its versatile design allows it to be used for various tasks, such as digging, lifting, and loading, making it a cost-effective choice for any project.

Why Choose Used Komatsu Excavator?

Choosing a used excavator can save you a significant amount of money without compromising on quality. The Used Komatsu Excavator has been thoroughly inspected and serviced, ensuring its reliability and functionality. With its powerful engine, impressive digging depth, and large capacity, it is a valuable addition to any construction or earth moving project.

Get Your Used Komatsu Excavator Today

Don't miss out on the opportunity to own a top-quality excavator at a fraction of the cost. Contact us now to get your hands on the Used Komatsu Excavator and take your construction and earth moving projects to the next level.

Technical Parameters:

Product Name	Used Komatsu Excavator
Product Model	PC160LC-7
Engine Model	SAA4D102E-2
Overall Size	8.6×2.5×2.99m
Max Digging Depth	5960mm
Max Digging Hight	8980mm
Working Weight	16500kg
Capacity	0.65m³
Travel Speed	3.4/5.5km/h
Fuel Tank	280L
Rated Power	112KW

Applications:

Used Komatsu Excavator - PC160LC-7

Komatsu is a world-renowned brand in the field of construction machinery, known for its high-quality and reliable products. Among its wide range of products, the Komatsu PC160LC-7 Excavator stands out as a powerful and efficient machine that is suitable for various construction applications.

The Komatsu PC160LC-7 Excavator is a hydraulic excavator, designed for heavy-duty digging and lifting tasks. It is a part of the Komatsu Construction Excavator series, which is known for its exceptional performance and durability. This excavator is widely used in construction sites, mines, and other industrial areas for its versatility and efficiency.

Made in Japan, this Komatsu Digging Excavator is a testament to the country's engineering excellence. It is built with precision and attention to detail, ensuring top-notch quality and reliability. This excavator is a popular choice among construction companies and contractors worldwide, making it a highly sought-after used construction machinery in the market.

Applications and Scenarios

The Komatsu PC160LC-7 Excavator is an ideal choice for a variety of construction applications, thanks to its powerful engine and advanced features. Here are some of the scenarios where this excavator can be used:

Excavation and Digging: With a max digging depth of 5960mm and a capacity of 0.65m³, this excavator is perfect for digging and excavation tasks. It can efficiently handle various types of soils and materials, making it suitable for a wide range of projects, such as building foundations, road construction, and trenching.

Material Handling: The Komatsu PC160LC-7 Excavator's robust design and hydraulic system make it an excellent choice for material handling tasks. It has a lifting capacity of up to 9 tons, making it suitable for loading and unloading heavy materials, such as rocks, debris, and construction equipment.

Demolition Work: This excavator's high reach and powerful engine make it a perfect choice for demolition work. It can easily tear down structures and buildings, making it a valuable asset for demolition contractors.

Mining: The Komatsu PC160LC-7 Excavator is also suitable for mining operations, thanks to its robust build and powerful digging capabilities. It can efficiently handle the tough and demanding conditions of mining sites, making it a popular choice among mining companies.

Key Features

The Komatsu PC160LC-7 Excavator boasts several features that make it an exceptional machine for construction work. Some of its key features include:

High Digging Height: With a max digging height of 8980mm, this excavator is suitable for a wide range of construction tasks, from shallow digging to high-reaching work.

Travel Speed: The excavator has a travel speed of 3.4/5.5km/h, making it a fast and efficient machine for moving between job sites.

Fuel Tank: The excavator comes with a 280L fuel tank, providing enough fuel for extended working hours, reducing the need for frequent refueling.

The Komatsu PC160LC-7 Excavator is a reliable and efficient machine that can handle various construction tasks with ease. With its powerful engine, advanced features, and robust build, it is an asset that can boost productivity and performance on any job site. If you are looking for a used Komatsu Hydraulic Excavator, the PC160LC-7 model is an excellent choice that will not disappoint.
